

Audio/Video Accessories

Sima Digital Video Effects Mixer

For professional quality mixing results without professional studio prices. Digital signal processing maintains the integrity of video signals keeping down "noise" while producing vibrant colors and crystal clear picture quality. Use strobe, mosaic, paint, still and negative effects to maximize the impact of your images on both A and B channels. Select the size and position of special effects areas with joystick accuracy. Create PIP windows and use the joystick to move location on the screen. Circle, bar, cross-hatch, corner and wedge wipes along with fade to black and fade to white effects. You can pre-set the speed of wipes and fades for one-touch automatic control. Use the chroma key (blue screen) or the luminance key (black screen) to isolate images and superimpose onto other scenes. Four inputs: Two audio/video inputs and two S-video inputs give editorial flexibility and increase options.

Sima GoDVD! VHS and DVD Duplicator

Sima's GoDVD! makes copying between VHS and DVD

formats a snap. This single unit will copy DVD to VHS, VHS to DVD and DVD to DVD. Both NTSC and PAL conversions are included for videos recorded or viewed overseas. The GoDVD! digitizes the video signal to reduce sync "noise" and features four output settings to improve image quality. **Features:** • Easy connection to any DVD recorder • Stabilizes video signals for crisp copies • Digital technology reduces noise in video sync • S-VHS, VHS-C, VHS, 8mm and DVD compatible • Four output signal enhancement modes: Normal, enhanced, darker and black/white • Supports NTSC and PAL formats • Makes perfect copies of any video automatically **Notice:** Use of this product for unauthorized duplication of copyrighted material from DVD, VHS or other media is prohibited under federal copyright laws unless the copy qualifies as a fair use under the Copyright Laws.

Sima Color Corrector 2 Professional Video Processor and Enhancer

Sima's Color Corrector 2 Pro Series video processor and enhancer allows you to copy anything to DVD and all other formats. You can adjust the video signal by controlling brightness, color, tint and sharpness while copying. The SCC-2 is the only unit needed to copy S-VHS, VHS-C, VHS, 8mm and DVD formats. It also fine-tunes red, green and blue (RGB) video colors to achieve a correct white balance. The sync and color burst are also restored for solid copies. **Features:** • Enhanced digital circuitry • Supports PAL and NTSC • Regenerates video signals • Adjustments for brightness, contrast, tint, color and sharpness • Individual RGB adjustments • Equipped with two composite and two S-video inputs and outputs • On-screen menus • Easy connection to any DVD recorder • Enhance and adjust your videos for perfect copies. **Notice:** Use of this product for unauthorized duplication of copyrighted material from DVD, VHS or other media is prohibited under federal copyright laws unless the copy qualifies as a fair use under the Copyright Laws.

Sima Seven Input Audio Video Component Selector

The VS-712 EX Audio/Video Selector meets today's A/V switching requirements and has the advanced features to handle tomorrow's trends. Seven A/V inputs can be independently mapped to record or view outputs. Coordinating any home theater system adding flexibility and trouble-free wiring management. The layout of the sleek brushed aluminum front panel is intuitive and easy to operate, and the front input jacks allow quick connection of portable devices like a digital camera. **Features:** • **Automatic input sensing:** The VS-712 EX detects the new device, turns on and automatically activates that input, without the need to push any buttons. • **Automatic volume stabilization:** Volume compression setting pulls loud and soft sounds toward a mid-point in the dynamic range. • **Two independent output channels:** Two outputs let you select one source for viewing (like the DVD) to watch on your TV and a second source for recording (like the DSS) to feed to your VCR for recording at the same time. • **Video upconverting**

Sima Audio Video Switcher with Component Video

Provides the necessary A/V inputs for adding components to your TV and home theater system. Has five audio/video inputs including component video, S-video and digital audio plus dual outputs to feed your TV and either a receiver or VCR for recording. The VS-502 will help make the transition to HDTV easy! **Features:** • **Easy video conversion:** Switch between three different video types including up-converting composite to S-video and composite and s-video to component video. • **Auto input sensing:** Detects the current unit in use and automatically connects to that input, without having to push any buttons! • **Automatic volume stabilization:** Volume compression setting pulls loud and soft sounds toward a mid-point in the dynamic range. • **Two independent output channels:** Two outputs let you select one source for viewing (like the DVD) to watch on your TV and a second source for recording (like the DSS) to feed to your VCR for recording at the same time.

**SONY
Digital Voice Recorder**

The ICD-B16 holds up to 495 minutes of recording time, and its professional design makes it easy to operate. The record and pause controls are located on the side of the unit, and the one button play from record lets you switch modes quickly. The unit has two message folders, which allows you to better organize things like business memos or personal messages. The 16Mb built-in flash memory makes it possible to re-record over and over without distortion or loss of clarity, and hi/lo mic sensitivity gives you flexibility in different recording situations. Includes two "AAA" batteries. Dimensions: 1 1/8" (W) x 4 1/4" (H) x 3/8" (D).

Order # (1-3) (4-up)
ICD-B16 \$47.99 \$45.50

**SONY
Digital Voice Recorder**

The ICD-P28 holds more than 15 hours of recording time (945 minutes). This digital voice recorder is small, less than 3 ounces and a 1/2" thick, but it has the functionality you need. A fast USB transfer rate, voice e-mail function, five message folders, and an overwrite correction function are just some of its many features. USB compatibility lets you quickly transfer audio to your PC. The 32Mb built-in flash memory makes it possible to re-record over and over without distortion or loss of clarity. It's easy to operate, thanks to the professional style design, which includes one button play from record, incremental rewind, and simple playback/editing functions. **Includes:** PC download software, two "AAA" batteries, USB cable. Dimensions: 1 3/8" (W) x 4" (H) x 1/2" (D).

**Camcorder
Zoom
Microphone**

The new Universal Zoom Microphone, Model SZM-2, delivers the sound quality that is missing from today's compact camcorders. The SZM-2 is designed to pick up sounds directly in front of the camera and reject sounds from the sides. This is ideal for applications such as plays, sporting events or on-camera interviews where you want to hear the speaker clearly and not the background. The SZM-2 uses a high quality electret condenser element to provide high sensitivity and low noise for true high quality audio. The two switch settings lets you choose between normal and super directional pick-up. It mounts easily to any standard camera shoe mount. The SZM-2 can also be used as a hand held microphone with the supplied 25' cord for interviewing, flexibility and professional sound quality. **Features:** •Focused sound pick-up •Eliminates background noises •Camera mount and hand-held operation •Sturdy, lightweight aluminum construction •Switch setting for normal and zoom mode **Specifications:** •Type super cardioid electret condenser •Settings normal and long distance •Sensitivity -70db (short distances), -51db (long distances) •Frequency response: 80~12KHz •Max sound pressure: 120dB •Power source: 1.5VDC, one "AA" battery **Includes:** •2' coiled cord •25' cord •Wind screen •Camera shoe mount •Mfr. #SZM-2

**TERK
TECHNOLOGIES
Remote Control
Extenders**

Leapfrog's remote control extender converts the infrared signal from a remote control into a long-range RF radio signal, allowing A/V systems to be controlled from virtually anywhere in the home without the need for additional equipment or wiring. Remote control extenders use the 418MHz frequency band to command components through any obstacle, including walls and floors. The product is ready to use in seconds, simply by mounting the sending unit to the remote and plugging in the receiver. Remote control extenders come with all the required equipment, including batteries. Just take it out of the box, set it up, and enjoy your components from wherever you choose. RCA and Dishnetwork extenders are designed specifically for your satellite receivers and the RCA units work with most RCA equipment.

RCA Remote Control Signal Sender

Control your DSS, VCR, etc. from anywhere in your home. Extension receives infrared signal from remote control, converts to RF and sends signal to base unit in other room. Base unit receives RF signal, converts to infrared signal and sends to designated device. RF signal goes through walls and floor. Comes complete with extension unit, base unit and infrared extender. 120VAC required for operation.

Order #	Description	(ea.)
D940	System	\$37.99
D935	Extension unit	19.99

**X10 PRO
Powermid™ IR
Extender Set**

The Infrared Remote Control Extender includes one transmitter and one receiver. The transmitter receives signals from any infrared remote control and converts them to wireless (RF) signals. These signals are transmitted to another location in the home and received by the receiver which converts the signals back to identical infrared signals to operate your TV, stereo, CD player, cable converter, etc. This lets you control all your audio and video products using your existing remote controls, from anywhere in the home! Plug a #RX569 extender into the back of the receiver if you want to place the receiver on top of a TV or stereo etc. (instead of in front of it).

D-VHS NTSC Home Theater Set-Up

"Digital Video Essentials", the long-awaited follow-up to the best-selling "Video Essentials", is the most advanced program for calibrating today's high-definition displays. Featuring the visual work of renowned cinematographer Allen Daviau ("E.T.-The Extra Terrestrial", "Empire Of The Sun", "The Color Purple"), "DVE" is the one calibration program that will render all of the other existing calibration discs obsolete. This is an essential resource for calibrating all high-definition displays when the source machine is a JVC HM-DH30000, HM-DH40000, or Marantz MV8300 HD digital VCR.

Avia

DVD Calibration Disc

AVIA combines tutorials with professional quality test signals for fully calibrating and testing audio and video systems. Simply sit back and watch the live video presentation or get involved and select in-depth coverage of specific topics. You select the tutorial depth or calibration tool.

Adjusting your audio and video system for maximum performance is easy with AVIA's step-by-step instructions. Professionals (or those who want to learn more) can directly access advanced calibration signals with on-line explanations. You'll want to use AVIA again and again to keep your system in top condition. **Features: Easy navigation:** On-screen menus make navigation intuitive. Just select a topic or calibration tool for instant access. **Video presentation:** AVIA's informative live video presentation tells you about home theater. You'll learn the basics about signal sources, processors, speakers, displays, making connections, arranging your viewing environment, and calibrating your system. **Audio calibration:** AVIA DVD provides highly accurate and innovative audio signals for setting channel balance, sound reference level, six channel phasing, and subwoofer crossover. Advanced users can choose among additional test tones for additional tests such as checking voice matching, frequency response, room resonance, and ambiance effects. **Video calibration:** AVIA DVD guides you step-by-step through the basic five user level video adjustments. New video test patterns were developed especially for AVIA DVD to increase accuracy and ease of use. Live video demonstrations show you exactly what to look for while making adjustments.

PRO-LUXE

Noise Canceling Headphones

A true price breakthrough in active noise canceling headphone technology. A built-in inverting amplifier electronically cancels out all ambient sounds near 300Hz.

This is perfect for eliminating background noise commonly heard near office machines, in vehicles, commercial jets and similar situations. 30mm neodymium magnet drivers produce full 20Hz~20KHz frequency response, further enhancing the sound quality of any sound source. Soft padded ear cushions provide hours of comfortable use, and folding design makes compact storage a snap. Attached 5' cord is terminated with a standard 3.5mm plug. Included adaptor converts stereo plug to dual mono 3.5mm plugs, with 13mm spacing, which is compatible with many commercial airline in-seat sound systems. **Specifications:** • Impedance: 32ohm • Sensitivity: 119dB • Active noise reduction level: 0~12dB @300Hz • Includes carry pouch • Requires "AAA" battery (#292-015), not included • Display packaged for resale

PRO-LUXE

Lightweight Headphones

Perfect for personal stereo or multimedia applications. Attached 5' cord enters from only one side, instead of both, making it much easier to keep out of the way and untangled. Wide, adjustable headband provides comfort while holding unit securely in place. 30mm diaphragms provide frequency response expected of models of over twice the price.

The cord is terminated with a standard 3.5mm plug, and 1/4" adaptor is included. **Specifications:**

•Frequency response: 20Hz~18KHz •Impedance: 32ohm •Sensitivity: 118dB •Display packaged for resale

Order #	(1-3)	(4-9)	(10-up)

Cartridges/Styli

DJs all over the world claim very high demands on their professional equipment, among which cartridges "plays" their decisive part by realizing the artistic

scratching-back-cuing and mixing work, as a big part of the show. Reliability and robustness is vital, when the cartridges night after night will have to withstand these demands in environments with extreme sound pressure and vibration. Many years of experience from producing cartridges, and a close contact to customers have now resulted in Ortofon versions directly addressed to the user by name.

39-500	AT440ML/OCC	Violet	Nude square micro-linear diamond	5-32KHz	.8-1.6 1.25 optimal	1/2"	1 KHz = 30dB 10KHz = -	149.00	120.19

Fig.	Order #	Type	Mfr. #	Comments	(1-9)	(10-up)
Z	40-1025	Sanyo/Fisher	ST-37	Also replaces Excel #S-75-CR, NEC LP-305M, Pioneer #PN-65, PN-75, diamond	\$6.29	\$5.85
AA	40-1035	Sanyo/Fisher	ST-66	Moving magnet, diamond	7.49	6.97
AA	40-1040	Sanyo/Fisher	ST-67	Diamond	11.22	9.73
BB	40-840	Sanyo/Fisher	ST-38D	Also replaces Audio-Technica #AT892	10.85	10.24
CC	40-845	Sanyo/Fisher	ST-44	Diamond	10.24	8.80
DD	40-1055	Sanyo/Fisher	ST-44J	Also replaces Akai #RS-33, Marantz #CT-240, Panasonic #EPS91, Pioneer #PN250, PN295, Sansui #SN-P313, SN-P515, Sharp #STY-131, Sony #ND-145G, Toshiba #C-32M, diamond	7.59	6.99
EE	40-1045	Sanyo/Fisher	ST-G9	Moving magnet, diamond Toshiba #ST-G10 N-45, N-77, Sharp STY-143, Aiwa N-10	7.47	6.75
FF	40-1020	Sanyo/Fisher	4-156T-0440	Used in Sanyo model #DXT600, replaces Panasonic #6-2339-11, Sharp #STY-146, sapphire, diamond	2.89	2.59
NNN	40-1345	Sears	89901	Used in 89381	4.61	4.05
KKK	40-1215	Sharp	STY124	Denon DSN-63	8.15	7.12
VVV	40-1240	Shure	N21D	Used in M7-N21D, M3, M7, M8 series	7.47	6.14
VVV	40-1240	Shure	N3D		7.47	6.14
VVV	40-1240	Shure	N7D		7.47	6.14
WW	40-1225	Shure	N75E		12.07	11.06
WW	40-1225	Shure	N75EJ	Used in M75EJ type II	12.07	11.06
VVV	40-1240	Shure	N8D		7.47	6.14
SS	40-1230	Shure	N95	Used in Shure M95	8.15	7.12
SS	40-1230	Shure	N95D		8.15	7.12
FFF	40-1245	Shure	SS35C	Used in SS35C	8.03	7.02
XX	40-1235	Shure	VN35E	Used in Shure V15 type III	8.03	7.02
XX	40-1235	Shure	VN35D	Raise or lower conical version of VN35E	8.03	7.02
GG	40-560	Shure	N-44	Diamond	8.27	6.86
HH	40-860	Shure	N-70B	Diamond	6.50	6.25
HH	40-865	Shure	N-70EJ	Diamond	9.21	8.70
JJ	40-570	Shure	N-75	Diamond	10.09	9.29
KK	40-580	Shure	N-91	Diamond	9.89	8.27
LL	40-1060	Shure	N-92	Diamond	7.49	6.97
MM	40-900	Shure	N-95ED	Elliptical diamond	20.99	19.49
NN	40-870	Shure	VN-35E	#15 type III stylus, elliptical diamond	19.99	18.49
VV	40-1325	Sonotone	2TS-N5T-7T	Used in Sonotone 2T, 5T, 7T, 9980	3.06	2.45
VV	40-1325	Sonotone	9987		3.06	2.45
DDD	40-1320	Sonotone	MS	Used in 511, 52T, 54T, 60T, 61T, 65T, 66T	3.06	2.45
DDD	40-1320	Sonotone	MS77		3.06	2.45
DDD	40-1320	Sonotone	MSD		3.06	2.45
JJJ	40-1335	Sonotone	N16T		3.06	2.55
JJJ	40-1335	Sonotone	N18T-S77		3.06	2.55
VV	40-1325	Sonotone	N2T-S		3.06	2.45
TTT	40-1255	Sony	ND127D		5.63	5.11
TTT	40-1255	Sony	ND127P	Used in Sony VX23P	5.63	5.11
BBB	40-1280	Sony	ND133G	Used in VL-300	8.70	7.37
BBB	40-1250	Stanton	D71E	Used in L717E	8.15	7.12
PP	40-1065	Stanton	D6800	Diamond #680EL, 681A	11.99	10.99
QQ	40-600	Stanton	500/500A	Diamond	11.99	10.99
DDD	40-1320	Toshiba	-	Used in Y590	3.06	2.45
MMM	40-1110	Toshiba	N36C	Used in C-36, ADC RML-LL38 linear, Aiwa-AF10 denon	9.93	8.70
NNN	40-1345	Toshiba	N-40		4.61	4.05
YYY	40-1295	Zenith	S-82621	Used in 142-167, Mag., Mar Pana., Sharp, etc.	3.06	2.45
TT	40-1210	Yamaha	N-6800	Used in CQ-5600, Akai RS150, Hitachi	12.19	10.97
